

Karim Bukhsh

Associate Software Developer

I'm computer science graduate. I have a solid understanding of computer science concepts and practical skills. I'm good at using programming to solve complex problems. I want to use what I've learned in my studies and personal projects about software development. I can quickly learn new technologies and programming languages. I'm eager to learn and interested in software development. I'm looking for any entry level position to contribute to a team, improve my skills, and make a positive impact in software development.
